"Shock To Your System"

Visit "[Shock To Your System](#)" on MotoLyrics.com

You seem like you're so restless, young at heart
Who gave you reason?
You should be out driving people wild
Who gave you a reason?

You got a shock to your system
Knocked your heart right out of sync

You're only meant to hurt once in a while
Who gave you reason?
You're only meant to cry once in a while
Who gave you a reason?

You got a shock to your system
Pull yourself out of it
I know that shock to your system
Knocked your heart right out of sync

What you are
What you are is lonely

You must rely on love once in a while
To give you reason
You must rely on me once in a while
To give you a reason

You got a shock to your system
Pull yourself out of it
I know that shock to your system
Knocked your heart right out of sync

What you are
What you are is lonely
What you are is lonely
