

Tegan and Sara "Time Running"

Visit "[Time Running](#)" on MotoLyrics.com

I could see you ten or twelve times a day
I think it's best we do it your therapist's way
I grow my hair long and wear big coats, yeah
I get so lovesick my sad thoughts float
The time you've got me running
News broke today so we're not talking
I think it's best we do a little bit of stopping
I want a house on a beach and you in my dreams
I need water, yeah, and a love love love love
The time you've got me running
The time
You've got me tired
Well I've got more for the world than this
(I've got more)

And I've got love that I need to give
(I've got more)
And I've got more for the world than this
(I've got more)
And I've got love that I need to give
(ahhhhh)
News broke today so we're not talking
I think it's best we do a little bit of stopping
I want a house on a beach and you in my dreams
I need water, yeah, and a love love love love
The time you've got me running
The time you've got me running
The time you've got me running
The time you've got me running
