There's a war inside of me
Do I cause new heartbreak to write a new broken song
Do I push it down or let it run me right into the ground?
I, I feel like, I wouldn't like me if I met me

Well, I can't stop talking for fear of listening to
unwelcome sound
And you haven't called me in weeks and honestly, it's
bringing me down
Oh, I, I feel like, I wouldn't like me if I met me
I, I feel like, you wouldn't like me if you met me

And don't you worry there's still time, don't you worry
there's still time

There's nothing to live for when I'm sleepin' alone, and
I wash
The windows outside in hopes that the glare will bring
you around
I, I feel like I wouldn't like me if I met me
I, I feel like you wouldn't like me if you met me

So don't you worry there's still time, don't you worry
there's still time
Don't you worry there's still time, don't you worry
there's still time

Sunshine is days away, I won't be saved, I know all the
words
Well, I can't say that I'll love you forever
Sunshine is days away, I won't be saved, I know all the
words
I won't say that I'll love you forever
