Cupid shot me in the eye  
So they say that love is blind  
Is she gonna say yes?  
Is she gonna say no?  
Whatcha gonna say  
Take away  
Am I moving too fast?  
Am I thinking too slow?  
I just wanna know  
So I took all night to write this stupid love letter to you  
Yeah you  
From me  
To you  
And All the time that I wasted on this stupid love letter  
to you  
Fuck you  
From me  
To you  
You said no  
No  
You said no  
No  
So I took all night to write this stupid love letter to you  
Pick your heart up off the floor  
Leave good intentions at the door  
Is she gonna say yes?  
Is she gonna say no  
Whatcha ya gonna say  
Take away  
Am I moving too fast?  
Am I thinking too slow?  
I just wanna know  
So I took all night to write this stupid love letter to you  
Yeah you  
From me  
To you  
And All the time that I wasted on this stupid love letter  
to you  
Fuck you  
From me  
To you

You said no  
No  
You said no  
NO  
So I took all night to write this stupid love letter to you  
Too late  
All the damage is done  
There's no return to sender  
So I took all night to write this stupid love letter to you  
Yeah you  
From me  
To you  
And all the time that I wasted on this stupid love letter  
to you  
Fuck you  
From me  
To you  
You said no  
No  
You said no  
No  
So I don't gotta night to write this stupid love letter to  
you
