

**GREG ALLMAN AND CHER****"Island"**

Visit "[Island](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I think we need an island  
Cause we can't get along  
In this place that we're on  
And honey  
When I wake in the morning  
If I could see your face  
If I could see your face

[Chorus:]  
And I've covered the whole world  
Searching for a way to get to you  
Will it be this way forever  
Ooh, I feel the night is breathing  
Closer than ever  
And I can't believe we're no together

I need to get some answers  
Cause I can't understand it  
We both know it's wrong  
And honey  
I wanna die completely  
We've dragging it out too long  
Much too long

[Chorus]  
And I've covered the whole world  
Searching for a way to get to you  
And I can't believe we're not together

I think we need an island
