"If I Die Now"

Visit "[If I Die Now](#)" on MotoLyrics.com

If I Die Now all I want from you is to remember
Who I am and who I've always been
If I Die Now I apologize to you forever
For all the bad things i have done trough out the years

If I Die Now what is the point of all my memories
It won't be long until they're gone you'll see
If I Die Now I am so glad that I have met you
All my friends that I've had 'til the end

The long and cold end comes close
As time you won't ever go slow
If I Die Now it is not like I have planned it
It was just to much for me to handle right now

If I Die Now I regret everything I could not do
There is so much left for me to wonder about
The long and cold end comes close
As time you won't ever go slow
