On and on and on and on
We've been doing this too long
It's time to find another way
It doesn't matter what you say

On and on and on and on
I wish that this would soon be gone
Another Sunday comes along
I have to find out what is wrong

You would feel much better if you left this life alone
I know you've called up and hung the phone up
Don't do this to yourself
Don't be scared to take the step into the dark unknown
Are you ready to grow up?
Let's get ready to grow up

You're on your own for a while
You'll decide for yourself
What you want no one else
You'll be free to live again

On and on and on and on
The time for brand new things has come
It doesn't matter what you say
I'm gonna leave you anyway

You will feel much better now when everything is gone
You're gonna feel free to be yourself and
You'll be much happier
Don't be scared of loneliness it's what you have
embraced
When you locked it with someone
When you've spent your time alone

You're on your own for a while
You'll decide for yourself
What you want no one else
You'll be free to live again

You're not alone we'll be here

Solid stones by your side
Put your feet on our backs
When you go we'll carry on
