"Come On"

I can kill forever in a day
Disecting every second
I can be perpetually devoid
You'll never sense upheaval in my voice
Come On (x3)
Do you really wanna
F--k with me tonight?
I pretend to sleep at night
Just to hear your voice, callin'
I've been down this path before
Keep leaving, wanting
Come On
Do you really wanna f--k with me?
Come On
Do you really wanna
F--k with me tonight?
I've got my hammer, duct tape, visqueen
I know that nobody believes me
I've got something to say
Born in my bloody reign
Don't ever, doubt my art in pieced together,
Body parts

I've got my hammer, duct tape, visqueen
I know that nobody believes me...
I can kill forever in a day
Disecting every second in the way
I can be perpetually devoid,
You'll never sense upheavil in my voice
