Just because you're a saved
How does that make me lost?
Eyes wide hands tied capsized in flouride 4 out of 5
Recommend a gun
What if you were wrong
The argument goes on and on
A fistful of dollars
Ring around the collar
And father never knew he had a son
Wait for the final setting sun
Rise for the everlasting one
The oldest form of possession
What a waste to spend life on
Why no war's ever really won the true devil,
Religion do not confuse this with condemning
Having faith, hatred and god fuel the future master
race
Escape your prisons
Open up your minds
Believe there's something besides your way behind
The disguise behind you disguiseMushroomhead
