(J Mann)

Can we make progress - have we learned our lesson
how can we take the test - without the questions
the mind will play pontius - the hearts the defendant
the soul is the conscience - you're the next contestant

(Nothing)

Somehow the greatest point
Cause without reason
Somehow my madeup mind
Acts without thinking right

(J Mann)

Interigate the truth until you hear what you like

(Nothing)

Now I can understand
What keeps me going
There is no master plan
Nothing to go on, to grow on, believe in
Everything leaves me cold
To many promises
Not enough evidence of my soul

(J Mann)

Interigate the truth until you hear what you like

(Nothing)

Nothing to go on, to grow on
Not enough evidence (somehow know where do i
begin) of my soul
Now I can understand
What keeps me going
There is no master plan
Nothing to go on, to grow, believe in
Everything leaves me cold
To many promises
Not enough evidence of my soul

(J Mann)

Interigate the truth untill you hear what you like

(Nothing)

Nothing to go on, to grow on

Not enough evidence somehow know where do i begin

(J Mann)

Interigate the truth untill you hear what you like

(Nothing)

Nothing to go on, to grow, believe in

Of my soul... somehow know where do I begin

(J Mann)

It's time to take the stand and defend your innocence

You can't slip throw the system

Exploiting its arrogance x2

(Nothing - J Mann)

Not enough evidence of my soul

Not enough evidence

Interigate the truth until you hear what you like

Of my soul... somehow know where do I begin

Interigate the truth until you hear what you like

Nothing to go on, to grow on

Not enough evidence... of my soul

Of my soul

Of my soul
