locked away i cant stay this pains got the best me  
every-day im  
splayed leave everything of me behind i cant stand the  
sight i love to  
fight can you smell the stench of death im the only real  
threat  
(come back)  
(takeing my time)  
(cant let them ever find me)  
death  
(you'll never see me till its to late)  
death  
come back  
hate everything someone somewhere  
hears the needle that you stick in my arm  
close the book they'll write a new chapter  
no peace of mind a new hate forms  
death death

death before dishonor and only my hate grows  
death before dishonor and only blood shows  
death before dishonor and only my hate shows

come back  
catch me  
cant save my life  
cutting neck buy neck  
come back  
catch me  
cant save my life  
cutting neck buy neck

death death

condemned  
neck buy neck
