I called the office-just to say hi-

you asked- how are things- I said things are fine

I was really sad and alone but no one was to know-what if I get hurt again?Better to stay this way.

I saw you crying-you said you're fine- you are strong.You told yourself Im really sad and alone.But no one is to know-what if I get hurt again-better to stay this way.

We are the life of the party-everyone tells us so-even they dont know-we're sad and alone- we're fine,we're strong.

Now years later-here we stand-not the life of the party-we stand as one-fine and strong-better to stay this way until time is gone.

Here we stand fine and strong
