"For Fruit's Basket"

Visit "[For Fruit's Basket](#)" on MotoLyrics.com

I was so happy when you smiled
Your smile breaks through the clouds of grey

Far from the sunny days that lie *here and* sleep
Waiting with patience for the spring
When the flowers will bloom renewed again
Knowing there's more beyond the pain of today

Although the scars of yesterday remain
You can go on living as much as your heart believes

You can't be born again
All though you can change
Let's stay together always

*papapapapapapapa papapapapapapapa
