Don't want you to wake up  
Stay under the stars  
Where no one can make us  
Change what we are

Dreamers in the dark  
Following our hearts

I try to be silent  
My eyes are too loud  
Sit back in my hiding  
While you're in the clouds

One kiss away  
From what I have to say

Don't want you to wake up  
Stay under the stars  
Where no one can make us  
Change what we are  
Don't want you to wake up

It's almost the morning  
One foot out the door  
As I let the light in  
To love you even more

May our minds lose the battle  
May our hearts win the war

Don't want you to wake up  
Stay under the stars  
Where no one can make us  
Change what we are

Don't want you to wake up  
Stay under the stars  
Where no one can make us  
Change what we are
