I?m lost in my head, been thinking all around  
I gotta find the off-ramp to my heart

Stop-lights in a row when all I want is go  
Drop into first and I?ll get home

It?s okay, I?m alright  
I?m just a little rough around the edges of this life  
Play it cool, you can always follow  
Breadcrumbs in a line when you are lost

Little, little seeds grew into trouble trees  
Sorry, sorry sight between my ears

I need to settle down and eat my troubled fruit  
The sweetness of the taste will do me good

It?s okay, I?m alright  
I?m just a little rough around the edges of this life  
Play it cool, you can always follow  
Breadcrumbs in a line when you are lost

Well the corners of my frown have slowly turned  
around  
No more upside down, no more upside sown  
They've slowly, turned around  
They've slowly, slowly turned around

It?s okay, I?m alright  
I?m just a little rough around the edges of this life  
Play it cool, you can always follow  
Breadcrumbs in a line when you are lost

It?s okay, I?m alright  
I?m just a little rough around the edges of this life  
Play it cool, you can always follow  
Breadcrumbs in a line when you are lost
