You cool me down

When I'm cold inside

You are warm and bright

You know you are so good for me

With your child's eyes

You are more than you seem

You see into space

I see in your face

The places you've been

The things you have learned

They sit with you so beautifully

You know there's no need to hide away

You know I tell the truth

We are just the same

I can feel everything you do

Hear everything you say

Even when you're miles away

Coz I am me, the universe and you

Just like stars burning night

Making holes in the night

We are building bridges

You know

When you're on your own

I'll send you a sign

Just so you know

I am me, the universe and you
