-- CHORUS --

California, baby. It motivates me lately.
...Set adrift on sunset strip and get a little crazy.

Nothing holds me here, so I'll fade away -- disappear.
I can't see why not I'll see the scenes and hit the spots.

-- PRE --

I'll stroll down the avenue and pace myself as I do...
I'll take the time to take the time.
I'm sure that things will work out fine.

chorus

I understand -- it never rains.
I think some sun will ease my pain, so there's no
doubt...
I've packed my bags. I'm heading out.
