"50 Ways"

Don't speak don't whisper
No one is listening now.
You were not the answer
You couldn't figure it out.

No fact all figures
Words coming out of your mouth.
Loathe, love, speak slowly
We're going round and around.

I try to focus on anything else
but I keep on hearing your name.
Fall silent probably stay depressed
and true to your 50 ways.
50 ways.

Lights out no focus

Look at the stars in the sky.
You have no motive
and now your wondering why.

I try to make plans with anyone else
but I keep on hearing your name.
Fall silent probably stay depressed
and true to your 50 ways.

I try to focus on anything else
but I keep on hearing your name.
Fall silent probably stay depressed
and true to your 50 ways.
