I don't know how to tell you
but I just can't take it
got me spinning circles when I first met you
like a broken record

while spinning I fell over
and then I woke up
to find the television on public access
twenty-nine it's not my kind...

you (you got me) got me right in the palm of your hand
you got me right in the palm of your hand

you got me, yeah you got me, right in the palm of your
hand
you got me right in the palm of your hand
you got me right in the palm of your hand
you got me right in the palm of your hand
