"Calling My Name"

Visit "[Calling My Name](#)" on MotoLyrics.com

Don't look back, I hear you calling my name
We're so in love, that we're acting insane
Time stands still but yet we're head over heels
Could this be how electricity feels?
[repeat]

I'll be true but I never had this feeling you gave me, you
gave me,
I can feel it in my bones the moment that you came,
You saved me, you saved me baby

Don't look back, I hear you calling my name
We're so in love, that we're acting insane
Time stands still but yet we're head over heels
Could this be how electricity feels?

I'll be true but I never had this feeling you gave me, you
gave me,
I can feel it in my bones the moment that you came,
You saved me, you saved me baby

Don't look back, I hear you calling my name
We're so in love, that we're acting insane
Time stands still but yet we're head over heels
Could this be how electricity feels?
[repeat]
