

Fully Down, The "Love It All"

Visit "[Love It All](#)" on MotoLyrics.com

Take a step back
And live for what you have
You take it for granted
It's easy to pretend
That everything is wrong
When you're feeling pitiful

You should know
Your life's worth more than this
And you will never know
You're in denial
So love it all
Love it all

All these minds
All the time
Always wanting

It could be worse
You could have no one there to tell you
You need to give it time
And understand what's wrong
Then you'll feel like nothing's lost
