I could happily spend
The rest of my life
In a perfumed garden
With you, with you

I'd invite all my friends
To stay a weekend
In a perfumed garden
With you, with you

That's too easy
Please let me stay

In the Summer I'd stay
In your garden all day
In a perfumed garden
With you, with you

It's so peaceful and warm
And I'd come to no harm
In a perfumed garden
With you, with you
That's too easy

Please let me stay

In the Summer I'd stay
In your garden all day
In a perfumed garden
With you, with you

But I don't envy you
Or the things that you do
In a perfumed garden
With you, with you

I could happily spend
The rest of my life
In a perfumed garden
With you, with you
