Song that xxx goes on
(it's) the sound of my heart
Captured in tone
That sleeps in my soul
It won't let go
Won't let go

Still, still waters run deep
Deeper than we really ever see
And still that sweet song in my veins
Is keeping me sane
Keeps it all away
Keeps it all away

It won't let go

Please come back
Before some xxx makes me into
That wonderstuff that we are
Now fall apart together in the styles
The changes on the rythmn
So people clap their hand

Bring it back to love
Bring you back to life
Bring it back to love
Bring you back to life

Brings you back to love
Brings you back to life
Brings you back to love
Brings you back to life
