Visit "[Make U Feel](#)" on MotoLyrics.com

Everything I do for you, I mean it from the heart
And all the little things that hurt
Its best to keep them to yourself

(pre-chorus)

So dont tell me please dont tell me now
Dont tell me, just dont tell me

(chorus)

Ill make you, Ill make you feel again
Ill make you, Ill make you feel again
You know I do and I always do
You know I do

Secrets, secrets I dont care
Go tell your secret friend
Lifes a ride it takes you up
And knocks you down again

(pre-chorus)(chorus)

Been here many times before
Found out theres nothing new
It feels so real, looks so far like
I got you where I want you

I got you where I want you

(chorus)
