Hey listen people we're victimized  
& circumcized crossed the line of  
no return the critics say we  
devastate, socialites just masturbate  
won't the losers ever learn  
Who said the music's dead in the streets??  
Don't know what they talk about  
They gotta put a bullet in my head  
if they want to keep me down  
keep me down

Power to the music in the streets

Mothers tell the sons of cyanide  
and suicide  
They blame it on the devil's tongue  
Suck me like a parasite military  
3rd reich  
You book burning bastards  
wasting blood  
Who said the music's dead in the streets??  
Don't know what they talk about  
I want my music waking up the dead  
don't tell me to turn it down

Power to the music in the streets
