Flash a smile like an alligator
Move her hips like a generator
All over town like an oil spill
If theres meat on the bone shell wag her tail

Im checkin out the heavens above
Yeah, I just got punched in the teeth by love

Construction work its silicone
Lights are on but no one home
Shes painted blue like a cartoon
Every man in town went on the honeymoon
Im checkin out the heavens above
Yeah, I just got punched in the teeth by love

Shes a hollywood vampirella
A storybook cinderella
Bitch smile and turned down eyes
Every dog in town lifts his leg on her thigh
