A preacher's daughter with a devil tattoo
Mama's little good girl sniffin that glue
Her box started buzzing ever since she heard the cre
White trash mannequin workin on a scheme
Livin on adrenaline daddy can't redeem
She turned up the radio
And headed to the show
She needs rock n roll (she's begging please)
She needs rock n roll
You know she's an underage angel with a dented halo
She needs rock n roll
Show small town girl was a trailer park queen
Headin to the city with her starry-eyed dreams
Fistful of pills and a fashion magazine
She turns up the radio
And heads to the show
(chorus)
