Smoke my hoochie
You say that I'm the devil
Reali T.H.C.
Marco Polo hailed it heaven
Socrates inhaled it too
Mr. Whitehouse.....tell the truth

You're the great exaggerator's
Since 1932
Telling evils of the reefer
But all thru time we've
Smoked the sky

Home grown vision
Compliments the senses
Opens up my mind
J.F.K. sold us freedom
Or was it just a business talk
Went up in smoke

He was the great seducer
Crawling from our T.V.s
Breathed hope in our future
And before he died he
Smoked the sky

B.C. hailed it heaven
I inhaled it too
Reali T.H.C.
When it's time we
Smoke the sky
