Romance her now dance her now and then
Show me how, show me how again
Yeah

Cause baby when you whisper in my ear
Ooh, I like it, I like it
Tell me all the words I wanna hear
Ooh, I like it, I like it

You make me crawl to you
I say, you make me crawl to you

Well I fall in not with any doubt
Till I give in cause I cant go without

You make me crawl to you, again and again
Ya know, you make me crawl to you

Ahh, I gotta know when Im gettin on
With you, with you oh yeah
Ahh, tell me what you want

Romance her now dance her now and then
Cause baby when I get you all alone
You like it, you like it
So show me how, show me how again

Cause you make me crawl to you
Ya know, you make me crawl to you, again and again
