Did a bad thing today
I shouldn't have called you over
Cause' you were my best friends girl
Wish I could erase it all

But I've been falling faster
Since I met this girl
And I've been hoping for disaster

Hoping for disaster now
Hoping for disaster now
Hoping for disaster now
Hoping for disaster now

So I pulled you aside
You didn't need much persuasion oh no
I didn't waste any time
Gave into temptation

But I've been falling faster
Since I met this girl
And I've been hoping for disaster

I've been losing my mind
Trying to get by without you
I've been losing my mind
Trying to get by without you
When I think about it
Well it only makes it worse
If only I met you first

Hoping for disaster now
Hoping for disaster now
Hoping for disaster now
Hoping for disaster now

But I've been falling faster
Since I met this girl
And I've been hoping for disaster
