Out of my body
Out of my mind
Searching for ways to pass the time
Wasting my days away like that
Nothing I do could bring me back

And you know
I couldn't breathe cause' I was down
I couldn't talk but make a sound
But then you turned it all around
And I, I
Couldn't escape the weirdest scene
It was like nowhere else I've been
Filling me up with so much doubt
I just had to find my own way out

The more I tried the more it made me
Out of my mind like I was crazy
I was lost but now I'm found
And I can see for miles around

Oooh, oooh, oooh, ooh
And I'm as high as I can get
Oooh, oooh, oooh, ooh
And I got no regrets
You saved my life
Because I, I
Found you on the internet

Out of my body
Out of my mind
Searching for ways to pass the time
Wasting my days away like that
Nothing I do could bring me back

And you know
I couldn't breathe cause' I was down
I couldn't talk but make a sound
But then you turned it all around
And I, I
Couldn't escape the weirdest scene

It was like nowhere else I've been
Filling me up with so much doubt
I just had to find my own way out

The more I tried the more it made me
Out of my mind like I was crazy
I was lost but now I'm found
And I can see for miles around

Oooh, oooh, oooh, ooh
And I'm as high as I can get
Oooh, oooh, oooh, ooh
And I got no regrets
You saved my life
Because I, I
Found you on the internet

I found you on the internet x2
