Would you be there for me?
I know I have done so wrong
Just please listen to me
Give me some time it won't take that long
You'd never get a second chance to make the first
impression
Please understand that you don't have to
Cause I have learned my lesson

(Chorus)

I'm going now. Has set the sails, without a captain who
is steering
I know I won't get far without you by my side

I'm going now. Has set the sails, without a captain who
is steering
I know I won't get far without you by my side

Will you be there for me?
When I reach the other shore
That's the way it should be
I can't take this anymore!
I want to get a second change cause:
You said things would be all right
Now that's all I can think of
Maybe someday I'll see light

(Chorus)

I'm going now. Has set the sails, without a captain who
is steering
I know I won't get far without you by my side

I'm going now. Has set the sails, without a captain who
is steering
I know I won't get far without you by my side

And now I'm capable to see,
Behind those threats and lies, to end this agony
You said it would be all right

That some day I would see the light

I'm going now. Has set the sails, I am captain who is
steering

I would not get this far, with you by my side

I'm going now. Has set the sails, I am captain who is
steering

I would not get this far, with you by my side

Without you, without you by my side (without you)
