Close your eyes, my love, my own
My precious child, mo stoir?n

The summer's come with warmth and sun
The grainy leaves are growing
Softly sleep while watch I keep
The breezes gently blowing

Close your eyes, my love, my own
My precious child, mo stoir?n

Your father comes across the land
With gifts for you and for me
Ducks and eggs in either hand
And freshest fish from Tra Li

Close your eyes, my love, my own
My precious child, mo stoir?n
