"Help Us Out"

Visit "[Help Us Out](#)" on MotoLyrics.com

Natural disaster brought us together.
In the name of science let me go.
This town was built with honest labour.
Sometimes it's all that people know.

You could help us out.

Would you help us out, would anybody help us out?
Would you help us out, could anybody help us out?

Children play at doctors and nurses.
Grown men work at pest control.
Have you lost all of your senses?
Leading the way is all about taking control.

You could help us out.

Would you help us out, would anybody help us out?
Would you help us out, could anybody help us
Out, out, out, out.

You never help us out.
You never help us out.
You never help us out.
You never help us out.

Banks are broken, the shops are looted.
Science warned this was bound to happen.
Water in every quarter.
All the world is waiting for action.

You could help us out.

Would you help us out, could anybody help us out?
Would you help us out, could anybody help us
Out, out, out, out.
