Touch eachother in black and white
Eia eia eieieia, eia eia eieieia, eia eia eieieia etc..

Where did your hands go
When you thought i was your life
I could see his hands
They were touching you all night

And where did your hands go
When you thought i was your life
I could see his hands
They were touching you all night
Touching you all night night night

Touch yourself, touch yourself, touch eachother in
black and white
Touch yourself, touch yourself, touch eachother in
black and white
