"I FOUND YOU"

Visit "[I FOUND YOU](#)" on MotoLyrics.com

As the snow melts into the river
as the rock tumbles to the sea
as the gift is part of the giver
my love you are the other part of me

As the sands climb up from the ocean
as the trees reach up for the sky
from our love springs our devotion
it just does ain't no telling why

Honey how I need to tell you
I really need to let you know
your precious love has set me free
I never want to let you go

Now that I found you
I want to comfort you
Now that I found you
I want to care for you
Now that I found you
I want to be good to you
Now that I found you
I want to be there for you
