(C. The Walt Disney Music Company)

Let's get busy

Ooo, together

If you believe in love and understanding

Reach out and take me by the hand

Won't you follow me to wonderland, yeah, yeah?

And if you think this world is too demanding

Means don't justify the ends

Look my way, you're gonna see a friend (see a friend)

CHORUS

Let's get it together

Everybody

Make it forever

Let's get it together

And make it right

Ooo, let's get it together

(whoa, whoa)

Ooo, let's get together

Ooo, let's get it together

And make it right, hey, hey

There's a calling to our generation

Come on and lend a helping hand

We got to make this world all we can

And oh, I gotta tell ya

People for people all across the nation

We got a future going on

And education's gonna keep us strong, yeah

Keep us going on and on and

(CHORUS)

Break it down, break it down, break it down

Break it down so the drumbeat goes like this

Break the track back

Ooo, together (hey, hey, yeah)

Ooo, together (I said)

Ooo, together

Come on, everybody, with me

(Chorus repeats until fade)
