

## Tempest

### "Count On Us"

Visit "[Count On Us](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There's a rumble starting underground  
You know we're on our way  
Move like the night so that we can't be found  
Coming to save the day

April you know we're with you  
And that you'll be okay

We are four brothers  
Who know what is right  
Four ninja brothers  
Ready to fight

Shredder get ready  
'Cause you're goin' down

Look out because  
the turtles are in town

April you know we're with you  
And that you'll be okay

You gotta fight to be free  
You gotta fight for what is right  
You gotta fight to be free  
But we need your help tonight  
You know we can make it right

When you're callin'  
You can count on us  
You feel like you're fallin'  
You can count on us  
No need to be afraid  
You can count on us

Wherever you are  
You know that we're never far

You gotta fight to be free

When you're in trouble

Don't know where to turn  
Feels like it's come to an end  
Just hang on because you're going to learn  
That you can count on your friends

No one can stop us once the fight's begun

Ain't gonna stop until the Foot's undone

We gotta let the music be

You gotta fight to be free  
You gotta fight for what is right  
You gotta fight to be free  
But we need your help tonight  
You know we can make it right

We're the turtles  
You can count on us  
Ninja turtles  
You can count on us  
We're the turtles  
You can count on us  
Ninja turtles  
You can count on us

Wherever you are  
You know that we're never far

You gotta fight to be free
