

Temple Of The Dog "Your Savior"

Visit "[Your Savior](#)" on MotoLyrics.com

Yeah, people like you, I know myself
Walk in the shoes of somebody else
Whisper to me, my tragic fate
Whisper to me, my tragic end

Don't give me your savior
Don't give me your savior
I said, "Hey"

Yeah, people I choose, life on my own
Burn me your fuse, throw me your stones
Give me your brand, burn on my hand
Whisper to me, my tragic end

But don't give me your savior
But don't give me your savior
I said, "Hey"

Oh, people I choose, I know myself
Lay my need out, give you my help
But you give me your blues
And you whisper my fate

But don't give me
Don't give me your savior

But don't give me
But don't give me

[Incomprehensible]
