Endless are the nights  
I stay with you  
Endless are the dreams  
You made come true  
Forever in my arms  
You're the reason tonight our love is endless  
[repeat]

Mami let's get it in  
In fact, bring a friend  
Your vibe is so stylish  
Wanna get inside of my wallet  
So hot but your lips so cold  
Each kiss like 20 below  
First time we met I ain't know  
Lips touched, I froze  
You've got this energy  
Maybe she's into me  
Or maybe it's the Hennessy  
Get right with the remedy  
You're the fix for this what I need  
By my side where you need to be  
Get right with the G&G  
Endless lasts for eternity

Endless are the nights  
I stay with you  
Endless are the dreams  
You made come true  
Forever in my arms  
You're the reason tonight our love is endless  
[repeat]
