"Stay With Me"

Visit "[Stay With Me](#)" on MotoLyrics.com

If you look in my eyes, say you don't need paradise
Then I won't wait around for your call
But I don't think you can, for the truth is I'm your man
Baby, lead me your heart and you're mine
All the time

Stay with me, reach for the light, keep us together
Stay with me, give me a call tonight darling
Stay with me, make you and I go on forever
Stay with me, give love another try

Are you thinking of me, is he thin reality
Do I walk through your dreams in the night
Coz for you, can't you see, that no-one
Compares with me
So wake up baby, you know that you're mine
After all this time

There come a day when baby you will know
I'm deep inside you and I touch your soul
So give into something you can't control
After all this time baby, you can't let me go
Stay with me, you're mine
You know that you're mine I'm everything you need

I love you baby you love me baby
And there's no way out

Stay with me, I think you know that you're mine
I could be yours for life, darling stay with me
Search your heart and you'll find me there
Give love another try
