You're my life, my past, my future  
No-one can come close to you  
Words are hard to summon, but I've never loved a  
Woman how I love you so completely true  
There are books of lives and lovers  
Mine begins and ends with you  
There between the covers lies a love so many others  
Only dream to feel but for us it's real

So shelter me in your caress  
Our love outshines the diamond, pales the pearl  
Any place without you near  
Is the loneliest place in the world  
Under you my guardian angel  
I have built a pedestal  
As my soul companion, there's a canyon setting you  
And womankind apart deep within my heart

So shelter me in your caress  
Our love has weathered storms and still come through  
But isn't that the way it is  
I'm not trying to hide what I'm feeling inside  
I can't live without you, there's nowhere to hide  
When the coldest steel is emptiness  
Without your love my life would be absurd  
For I can see beyond the tears to the loneliest place in  
the world

You are the girl who means the world to me  
You're the most beautiful there's ever been  
You have it all my love you're all I see  
Oh believe in me  
There's no way but you darling  
Nothing can keep us apart  
Through the years the pen is showing  
Every line dries hard and yet  
Let the pages crumble, for as long as ink is flowing  
I will never let you have one regret.
