I know a night  
Not over the street  
But a night that will always be me

That road that I went down  
When I was just about 6 years old  
That song  
That was made not only just me  
But also you  
That wonderful night

Those songs we heard  
Not only just our song  
But those lyrics that you never heard  
On that Wonderful Night

That road that I went down  
When I was just about 6 years old  
That song  
That was made not only just me  
But also you  
That wonderful night

Although I don't hear you  
All the time \_\_\_\_\_  
and I do not see you  
that much any more  
I still love you

That toad that I went down  
When I was just about 6 years old  
That Song  
That was made not only just me  
But also you  
That wonderful night

That wonder full night ( W O N D E R F U L N I G H T )
