There's no time for a warning
We've got to make our move
We can't wait until morning
We'll use the light of the moon
We've got love on our side
We're one step ahead
There's no time for lies
There's no time for regret
Holding on to love
We can't give in 'cause
Right or wrong
We'll hear the angels' song and lose our fear
And we'll disappear
Yeah we'll disappear
I'll kiss your lips when you're dreaming
I'll keep watch when you sleep
And I won't stop believing
When time makes me weak
We've got love on our side
We're one step ahead
There's no time for lies
There's no time for regret
Holding on to love
We can't give in 'cause
Right or wrong
We'll hear the angels' song and lose our fear
And we'll disappear
Yeah we'll disappear
Falling slow
Fall from view
I'll follow
I'll find you
Holding on to love
We can't give in 'cause
Right or wrong
We'll hear the angels' song and lose our fear
And we'll disappear
Yeah we'll disappear
