triple bypass
knocked on his ass
the doctor told him not to smoke
he dims the light
but late at night

puffing through the tube jammed on his throat
giving gravity a hand

feels all right, feels all right

cutting life short by making it grand
giving gravity a hand

giving gravity a hand
feels all right, feels all right

giving gravity a hand

one step closer to the promise land, yeah

scars from road rash
gifts ffrom each crash
memory of road grinding my bone
i die inside

if i can't ride carving through the canyons flying home
