yeah i 've heard that before but not someone as close as you. i've tried to stay clear of the hate that surrounds us. it hurts my ears. and i can't say you have no right to feel that way, all burned up inside. but i can try to change your mind. listen to me or should i say goodbye??? fear & resentment. and you should see the face you wear. i wouldn't be here if you didn't care. you're the same as the people around us. i feel your pain. and i can't say you have no right to feel that way, all burned up inside. but i can help you to find the things you need, the ties that bind. everytime i hear that sound of that little sigh that brings me down inside, i cry 'cause i don't know why i can't make you happy. yourself's a prisoner of lifes injustice. all that baggage is slowing you down. and i've heard that word before but not from someone as close as you. i tried to stay clear of the hate that surrounds us, it hurts my ears.
