Just another lonely sleepless night
It's always happens when I turn of the lights
Then I start to think about you
Don't know why I feel the way I do
But I don't think Im fallin' in love
Chorus
And it's getting harder everyday
To hide what I feel
And it's getting stronger everyday
Oh is this for real?
I find myself dreaming of you
As I watch the stars above
But I don't think I'm fallin' in love
All my friends think i'm doing fine
My daddy says that I should take my time
They don't know whats on my mind
That I'm thinking 'bout you all the time
But I don't think I'm fallin' in love
(Chorus)
I guess it's just a phase I'm going through
I'm pretty sure that I'll get over you
And I'll never let you know
I just can't let my feelings show
'Cause I don't think I'm falling in love
