(Slavens, Muller, Brand, Emert)
baby you can rob a bank
or hold up a 7-11
you can shoplift merchandise
and still buy your way into heaven
all you need is a valid excuse
they'll tell you it's a sin to steal
but you're only as guilty as you feel
just don't do what the bad people do
you can get away with anything
if you do it for love
you can get away with anything if you do it
but just make sure you're doing it
you can get away with anything if you do it for love
absolution comes from within
but love alone can save your soul from sin
just don't do what the bad people do
do it for love and only for love
not for money
or for power or some God up above
no judge or jury ever can convict you, son
