Nothing seemed worth fighting for
Until I stumbled onto you.
'Cause every night we spent together
Was a lie that we made true.

Never ever want to give it up.
Never ever want to give it up.
No no no.
Never ever want to give it up.
No.

Incomplete lost in your puzzle cause he fits better with
you.
Yeah every piece you force together will eventually
unglue.

Never ever want to give it up.
Never ever want to give it up.
No no no.
Never ever want to give it up.
Never ever want to give it up.

Tonight can we pretend,
The stars defend us from the morning light?
Although this dream must end, you know,
Never ever want to give it up.
I'm not giving up on you.
I'm not giving up on you.

Every instinct brought us closer but the logic would
come through.
And even though he's with you together,
We both know I'm meant for you.

Never ever want to give it up.
Never ever want to give it up.
No no no.
Never ever want to give it up.
Never ever want to give it up.

Tonight can we pretend,

The stars defend us from the morning light?
Although this dream must end, you know,
Never ever want to give it up.
I'm not giving up on you.

And if I love you I should let you go chase the day.
And if you end up coming back to me,
I will feel the same.
I hoped you would find your way.

Tonight can we pretend,
The stars defend us from the morning light?
Although this dream must end, you know,
Never ever want to give it up.

Tonight can we pretend,
The stars defend us from the morning light?
Although this dream must end, you know,
Never ever want to give it up.
I'm not giving up on you.

Never ever want to give it up.
I'm not giving up on you.
I'm not giving up on you.
