Slavens, Muller)  
Everybody's driving in their cars  
Everybody's telling me  
Boy you've gotta be a big star  
I don't listen to what they say  
I just concentrate on having a nice day  
And I say  
Hey, hey, hey  
Get outta my face  
Changes coming 'round  
Soon enough  
Gonna put you all in your place  
So get yourself a job that pays real good  
Find yourself a house in a nice neighborhood  
Get some money in the bank and  
Nothing bad will happen  
Don't worry about the nightly news  
Somebody else has got the blues  
You're on top and you can't lose  
Nothing bad will happen  
...yeah, right  
As it was it is  
And shall be evermore  
Don't be too concerned about  
What the future has in store  
Cuz you don't want to change it anyway  
Well, this is how you dig it  
So this is how it stays  
And I say  
Whoa, whoa, whoa  
Maintain the status quo  
And don't tell me about changes, baby  
I don't want to know
